Animals and Veterinary Science

Many 4-H members learn about animals like SHEEP, GOATS, PIGS, COWS, and HORSES. They must be fed, washed, brushed, and loved.

In VETERINARY SCIENCE you can learn to keep your pet healthy and know how to tell if he is sick.

4-H is about....

gardening

Growing plants, flowers, and vegetables can be fun!

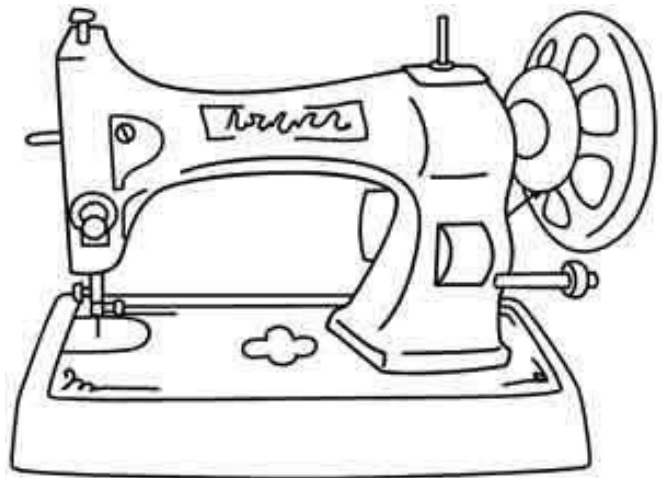

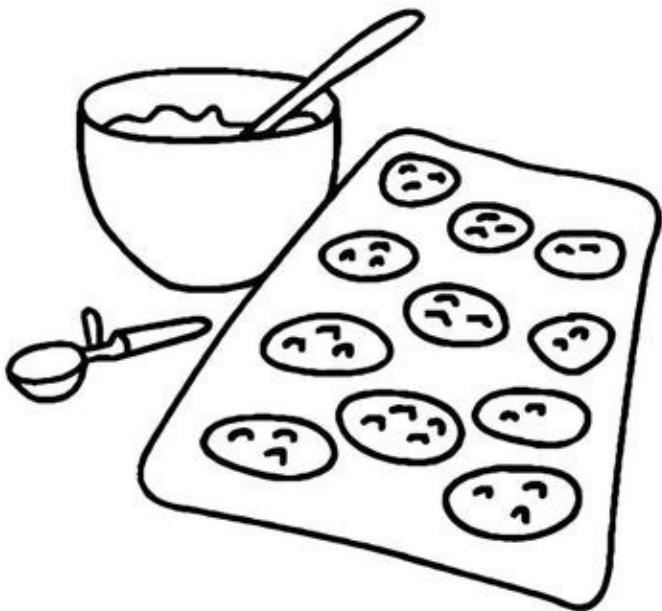

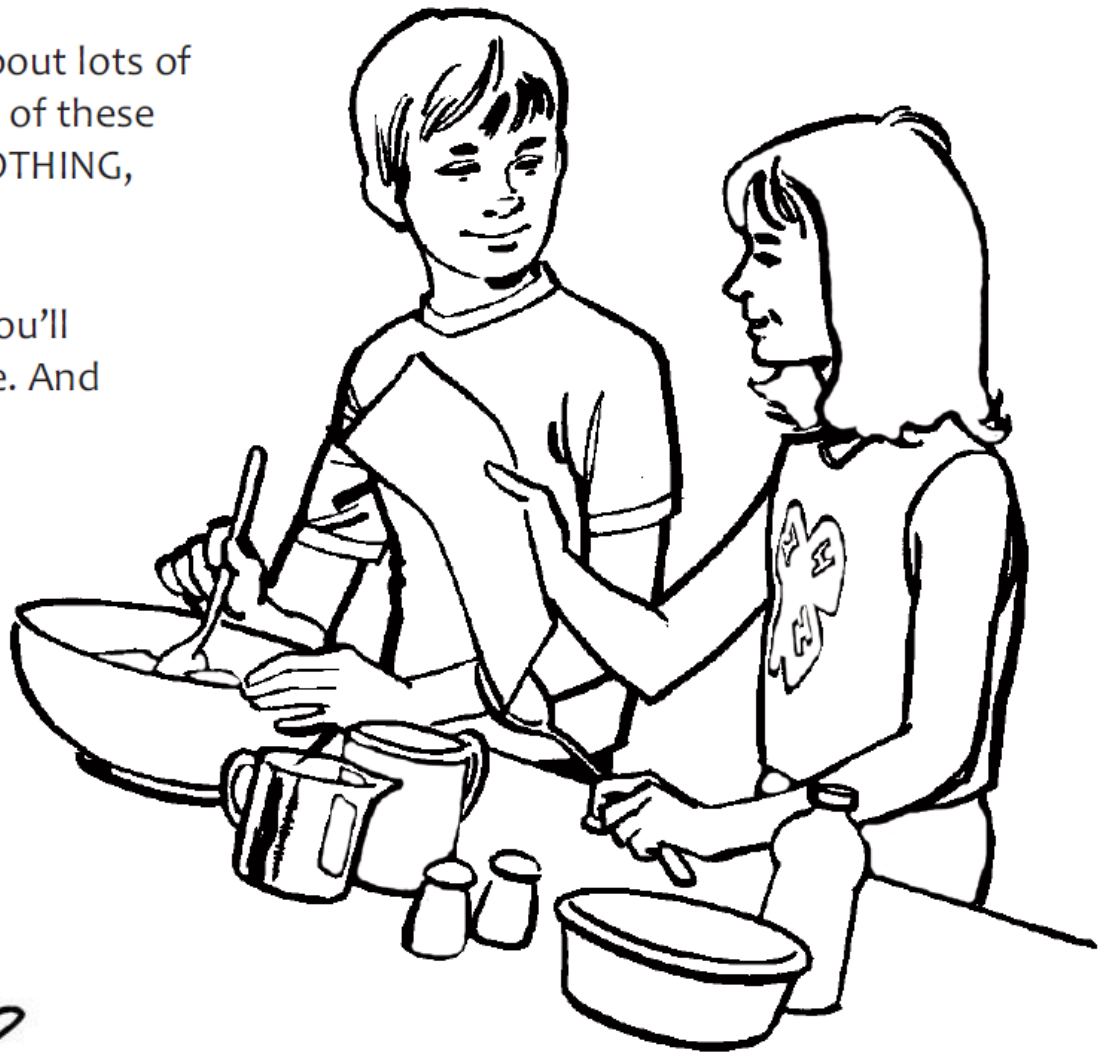

Gardens come in all sizes. They can be grown in large pots, in flower beds or directly in the ground. You can grow your own salad or Halloween pumpkin. You can grow flowers and learn to arrange them in a pretty bouquet. You can also grow plants inside your house!

Foods and Clothing

In 4-H you can learn about lots of different things. Some of these things are FOODS, CLOTHING, and CHILDCARE.

In the foods project, you'll learn to cook and bake. And you'll learn about vitamins and minerals.

In beginning clothing, you can learn to use the sewing machine to make things.

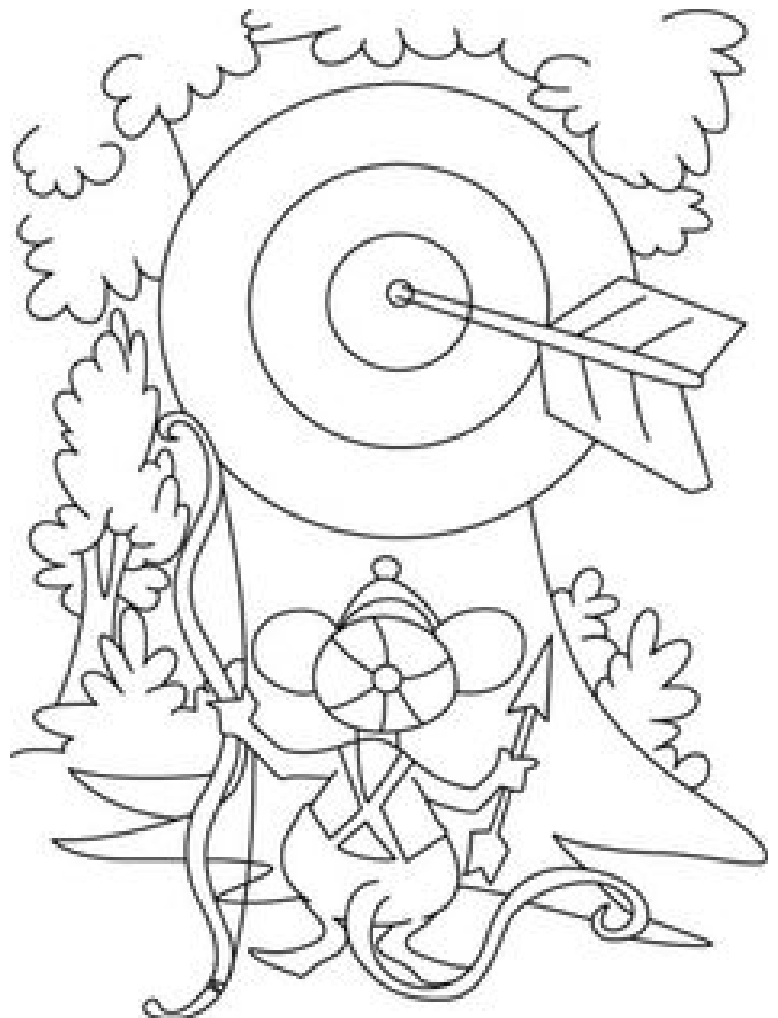

4-H is about cooking, baking, sewing and so much more!

4-H is about
STEM!

4-H is about
archery and
shooting
sports!

4-H is about working together for a common goal!
